

we learn, we build, we play with
LEGO® Bricks

AFTER SCHOOL

So fun it won't feel like learning!

WILLIAMS MARTIAL ARTS & FITNESS

Classes meet every Tuesday from 4:15pm to 5:15pm

6- Week schedule: 4/23, 4/25, 5/2, 5/9, 5/16 and 5/23

Most objects we use on a daily basis were invented by someone. Find out the origins of things like the hand mixer, windshield wipers and conveyor belts. During this unit, students will discuss the difference between an invention and a discovery, learn how inventions solve problems, and find out how inventors get their ideas patented. Each week, students are encouraged to think of what they could invent, or improvements they could make to an existing object to solve a problem. So many things we use each day are someone's invention. Introduce your student to the world of ideas, creativity, inventions and patents. We will construct different familiar objects each week such as a hand mixer, windshield wipers and a conveyor belt. Each model is motorized for maximum movement and fascination! Start creating!

6- week session
